Figures given in percentages
Basis: 1.006–1.018 participants
Perceived informedness about what is happening
How well or badly do you feel informed about what is happening with the novel coronavirus?
( Response scale: 1 ‘very bad’ to 5 ‘very good’ )

- (very) good: 57
- medium: 24
- (very) bad: 19

Figures given in percentages
Basis: 1,016 participants
Evaluation of media coverage
How do you evaluate the overall media coverage of the novel coronavirus? (Response options: ‘downplaying’, ‘appropriate’, ‘exaggerated’)

Figures given in percentages
Basis: 987 participants
### Used channels of information

How often do you use the following information channels to inform yourself about what is happening with the novel coronavirus? (Response options: ‘daily’, ‘several times a week’, ‘once a week’, ‘less than once a week’, ‘never’)

Appropriateness of the measures for containment
How do you evaluate the following measures to contain the spread of the novel coronavirus?
(Response options: ‘not appropriate’, ‘appropriate’)

- mandatory distance: 90% appropriate, 10% not appropriate
- regulation on working from home: 90% appropriate, 10% not appropriate
- mandatory use of masks: 88% appropriate, 12% not appropriate
- quarantine measures: 87% appropriate, 13% not appropriate
- cancellation of events: 78% appropriate, 22% not appropriate
- national vaccination strategy: 62% appropriate, 38% not appropriate
- contact restriction: 61% appropriate, 39% not appropriate
- closure of cultural institutions: 61% appropriate, 39% not appropriate
- restriction in schools/day-care centres: 52% appropriate, 48% not appropriate
- closure of gastronomic establishments: 49% appropriate, 51% not appropriate
- closure of shops: 45% appropriate, 55% not appropriate
- curfew: 40% appropriate, 60% not appropriate

Figures given in percentages
Basis: 983–1,017 participants
Current protective measures of the participants

Which of the following measures have you taken within the past 2 weeks to protect yourself or others from the novel coronavirus? (multiple selection)

- used covers for mouth and nose: 92%
- kept more distance to other people: 79%
- met friends or family less frequently: 78%
- washed hands more thoroughly: 77%
- ventilated closed rooms more frequently: 69%
- left home less frequently: 66%
- used disinfectant more frequently: 59%
- got tested for the coronavirus: 56%
- used Corona-Warn-App: 30%
- built up larger stocks: 14%
- had food delivered more frequently: 10%

Figures given in percentages
Basis: 1.011 participants
Perceived controllability of the risk of infection

How sure are you that you can protect yourself from an infection with the novel coronavirus?
(Response scale: 1 ‘not sure at all’ to 5 ‘very sure’)

Basis: 1.011 participants

Figures given in percentages

(very) sure: 58
medium: 28
not sure (at all): 14
Perceived probability of an infection

How high or low do you estimate the probability of being infected with the novel coronavirus via the following paths?
(Response scale: 1 ‘very low’ to 5 ‘very high’)

<table>
<thead>
<tr>
<th>Path</th>

Figures given in percentages
Basis: 960–1.010 participants
Over time
Concern about the impact of the novel coronavirus

To what extent are you personally concerned or not concerned about the impact of the novel coronavirus in the following areas of life?

(Response scale: 1 ‘not concerned at all’ to 5 ‘very concerned’) – Shown: response category ‘(very) concerned’ (values 4 + 5)

- Economic situation
- Social relationships
- Physical health
- Mental health
Perceived informedness about what is happening

How well or badly do you feel informed about what is happening with the novel coronavirus?
(Reaction scale: 1 'very bad' to 5 'very good')

Since June 2020 survey every two weeks on two (* three) consecutive days; the first day of each survey is indicated
Evaluation of media coverage

How do you evaluate the overall media coverage of the novel coronavirus?
(Response options: ‘downplaying’, ‘appropriate’, ‘exaggerated’)

Since June 2020 survey every two weeks on two (* three) consecutive days; the first day of each survey is indicated.

Figures given in percentages
Basis Mar–May: 480–502 participants
Basis from Jun: 965–1.019 participants
Used channels of information

How often do you use the following information channels to inform yourself about what is happening with the novel coronavirus? (Response options: ‘daily’, ‘several times a week’, ‘once a week’, ‘less than once a week’, ‘never’) – Shown: response category ‘daily’

![Graph showing usage of information channels over time]

Figures given in percentages
Basis: 983–1.024 participants
Appropriateness of the measures for containment I

How do you evaluate the following measures to contain the spread of the novel coronavirus? (Response options: ‘not appropriate’, ‘appropriate’) – Shown: response category ‘appropriate’

- **Cancellation of events**: 97, 97, 96, 96, 92, 90, 88, 87, 90, 88, 86, 87, 90, 88, 87, 80, 83, 88, 84, 78, 81, 85, 86, 84, 81, 76, 78, 84, 78
- **Closure of cultural institutions**: 97, 96, 96, 93, 92, 90, 85, 82, 72, 70, 70, 71, 73, 71, 75, 68, 78, 76, 78, 74, 72, 90, 90, 92, 83, 85, 87, 80, 83, 88, 84, 78, 81, 77, 79, 76, 79, 80, 88, 84, 72, 70, 70, 71, 73, 78, 79, 80, 88, 84, 72, 70, 90, 90, 92, 89, 92, 91, 91, 93, 96, 96, 94, 92, 85, 96, 93, 93, 94, 92, 95, 91, 91, 91, 91, 91, 91, 91, 91, 91, 91, 90
- **Quarantine measures**: 97, 96, 96, 93, 92, 90, 85, 80, 77, 70, 70, 71, 73, 71, 75, 68, 78, 76, 78, 74, 72, 90, 90, 92, 83, 85, 87, 80, 83, 88, 84, 72, 70, 70, 71, 73, 78, 79, 80, 88, 84, 72, 70, 90, 90, 92, 89, 92, 91, 91, 93, 96, 96, 94, 92, 85, 96, 93, 93, 94, 92, 95, 91, 91, 91, 91, 91, 91, 91, 91, 91, 91, 91, 90
- **Contact restriction**: 92, 88, 85, 85, 80, 77, 67, 72, 70, 70, 71, 73, 71, 75, 68, 78, 76, 78, 74, 72, 90, 90, 92, 89, 92, 91, 91, 93, 96, 96, 94, 92, 85, 96, 93, 93, 94, 92, 95, 91, 91, 91, 91, 91, 91, 91, 91, 91, 91, 91, 90
- **Mandatory distance**: 90, 88, 92, 90, 88, 90, 90, 92, 92, 89, 92, 91, 91, 93, 96, 96, 94, 92, 95, 96, 93, 93, 94, 92, 95, 91, 91, 91, 91, 91, 91, 91, 91, 91, 91, 90
- **Mandatory use of masks**: 86, 85, 83, 87, 73, 78, 79, 80, 88, 84, 92, 92, 87, 90, 92, 90, 92, 94, 89, 92, 93, 92, 94, 92, 91, 93, 91, 92, 90, 89, 88, 88, 88, 88, 88, 88, 88, 88, 88, 88, 88, 88, 88, 88

Since June 2020 survey every two weeks on two (*three) consecutive days; the first day of each survey is indicated

- a Wording was adapted to the current situation at the time
- b Measure was added to the questionnaire (again) at the time indicated

Figures given in percentages
Basis Mar–May: 474–512 participants
Basis from Jun: 916–1,031 participants
Appropriateness of the measures for containment II

How do you evaluate the following measures to contain the spread of the novel coronavirus? (Response options: ‘not appropriate’, ‘appropriate’) – Shown: response category ‘appropriate’

- closure of shops
- regulation on working from home
- curfew
- national vaccination strategy
- restriction in schools/day-care centres
- closure of gastronomic establishments

Since June 2020 survey every two weeks on two (* three) consecutive days; the first day of each survey is indicated

- Wording was adapted to the current situation at the time
- Measure was added to the questionnaire (again) at the time indicated

Figures given in percentages

  - March 30: 76%
  - April 13: 73%
  - April 27: 76%
  - May 11: 77%

- **left home less frequently**
  - March 30: 69%
  - April 13: 70%
  - April 27: 66%
  - May 11: 66%

- **ventilated closed rooms more frequently**
  - March 30: 68%
  - April 13: 70%
  - April 27: 71%
  - May 11: 69%

Figures given in percentages

Basis: 1,000–1,016 participants

Part of the questionnaire since 30 March 2021; survey on two consecutive days; the first day of each survey is indicated.
Current protective measures of the participants II

Which of the following measures have you taken within the past 2 weeks to protect yourself or others from the novel coronavirus? (multiple selection)

- used disinfectant more frequently
  - March 2021: 9%
  - April 2021: 11%
  - May 2021: 10%

- got tested for the coronavirus
  - March 2021: 40%
  - April 2021: 49%
  - May 2021: 56%

- used Corona-Warn-App
  - March 2021: 32%
  - April 2021: 31%
  - May 2021: 30%

- built up larger stocks
  - March 2021: 18%
  - April 2021: 17%
  - May 2021: 14%

- had food delivered more frequently
  - March 2021: 9%
  - April 2021: 11%
  - May 2021: 10%
Perceived controllability of the risk of infection

How sure are you that you can protect yourself from an infection with the novel coronavirus?

(Response scale: 1 ‘not sure at all’ to 5 ‘very sure’)

_since June 2020 survey every two weeks on two (* three) consecutive days; the first day of each survey is indicated*
Perceived probability of an infection

How high or low do you estimate the probability of being infected with the novel coronavirus via the following paths?

*(Response scale: 1 ‘very low’ to 5 ‘very high’) – Shown: response category ‘(very) high’ (values 4 + 5)*

- **proximity to other people**
- **door handles**
- **cash**
- **toys**
- **dishes and cutlery**
- **clothing**
- **food**
- **pets**

Since June 2020 survey every two weeks on two (*three) consecutive days; the first day of each survey is indicated.
Age groups
Concern about the impact of the novel coronavirus

To what extent are you personally concerned or not concerned about the impact of the novel coronavirus in the following areas of life? (Response scale: 1 ‘not concerned at all’ to 5 ‘very concerned’) – Shown: response category ‘(very) concerned’ (values 4 + 5)

- **Social relationships**: 35
- **Physical health**: 23
- **Economic situation**: 24
- **Mental health**: 27

**14 to 39 years**
- **Social relationships**: 35
- **Physical health**: 23
- **Economic situation**: 24
- **Mental health**: 27

**40 to 59 years**
- **Social relationships**: 39
- **Physical health**: 26
- **Economic situation**: 23
- **Mental health**: 29

**60 years and over**
- **Social relationships**: 23
- **Physical health**: 19
- **Economic situation**: 17
- **Mental health**: 10

Figures given in percentages
Basis: 315–351 participants in corresponding age group
### Perceived informedness about what is happening

How well or badly do you feel informed about what is happening with the novel coronavirus?  
*(Response scale: 1 ‘very bad’ to 5 ‘very good’)*

<table>
<thead>
<tr>

### How were the data collected?

<table>
<thead>
<tr>
<th><strong>Statistical population:</strong></th>
<th>German-speaking population ages 14 years and over in private households in the Federal Republic of Germany</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Sampling:</strong></td>
<td>Samples drawn at random from land line and mobile telephone numbers which can also include telephone numbers not listed in directories (in line with standards set by the Association of German Market Research Institutes – ADM)</td>
</tr>
<tr>
<td><strong>Data weighting:</strong></td>
<td>Data was weighted according to gender, education, age, employment, size of city and German federal state to guarantee representativeness</td>
</tr>
<tr>
<td><strong>Method:</strong></td>
<td>Telephone interview (CATI omnibus survey, Dual Frame)</td>
</tr>
<tr>
<td><strong>Presentation of results:</strong></td>
<td>All figures given in percentages, rounding differences are possible, only valid responses were included (response option ‘don’t know’ was excluded from all analyses)</td>
</tr>
<tr>
<td><strong>Conducted by:</strong></td>
<td>Kantar GmbH</td>
</tr>

About the BfR

Do nanoparticles promote the occurrence of allergies? Does apple juice contain too much aluminium? The German Federal Institute for Risk Assessment, or BfR for short, is responsible for answering questions on all aspects of the health assessment of foods and feeds, consumer products and chemicals. Through its work, it makes a decisive contribution towards ensuring that food, products and the use of chemicals have become safer in Germany.

The Institute’s main tasks comprise the assessment of existing health risks and identification of new ones, the development of recommendations to limit risks and the transparent communication of this process. This work results in the scientific advice given to political decision makers. To help with the strategic alignment of its risk communication, the BfR conducts its own research in the field of risk perception. The Institute is independent in its scientific assessments, research and communication. The BfR belongs to the portfolio of the Federal Ministry of Food and Agriculture (BMEL).
