# BfR Corona **MONITOR**

## 22–23 June 2021

## **Current week**

## BfR-Corona-Monitor | 22–23 June 2021

## **Concern about the impact of the novel coronavirus**

To what extent are you personally concerned or not concerned about the impact of the novel coronavirus in the following areas of life? (Response scale: 1 'not concerned at all' to 5 'very concerned')

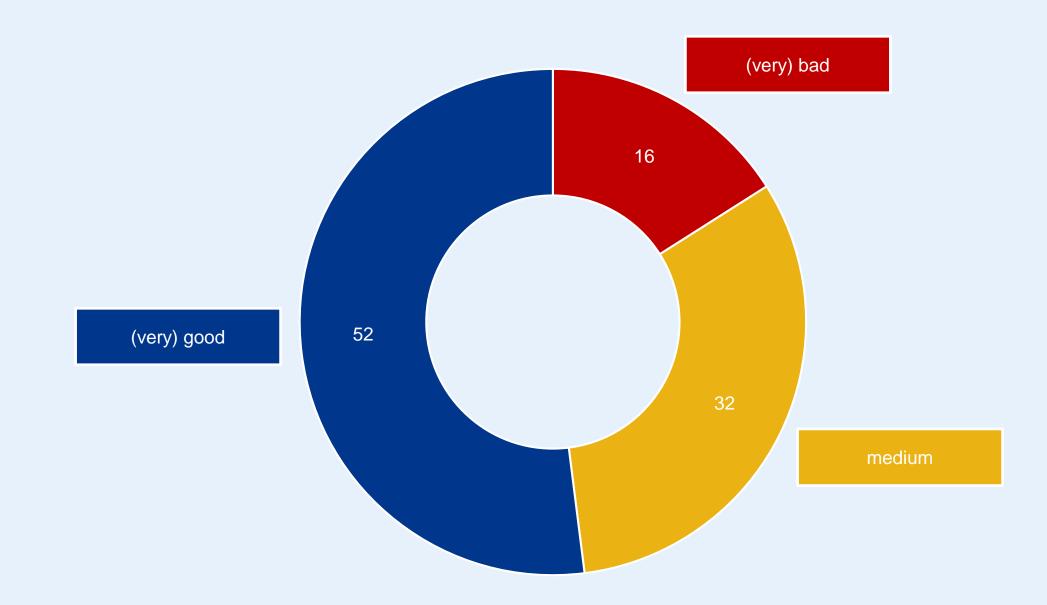

## BfR-Corona-Monitor | 22–23 June 2021

Figures given in percentages Basis: 992–1.002 participants

## Perceived informedness about what is happening

How well or badly do you feel informed about what is happening with the novel coronavirus? (Response scale: 1 'very bad' to 5 'very good')

#### BfR-Corona-Monitor | 22–23 June 2021

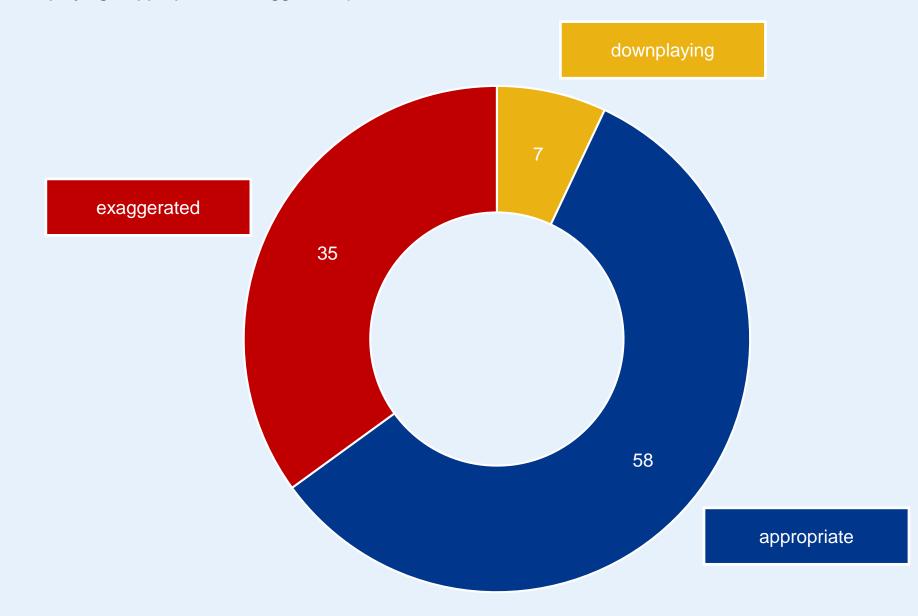

4

Figures given in percentages Basis: 988 participants

## **Evaluation of media coverage**

How do you evaluate the overall media coverage of the novel coronavirus? (Response options: 'downplaying', 'appropriate', 'exaggerated')

#### BfR-Corona-Monitor 22–23 June 2021

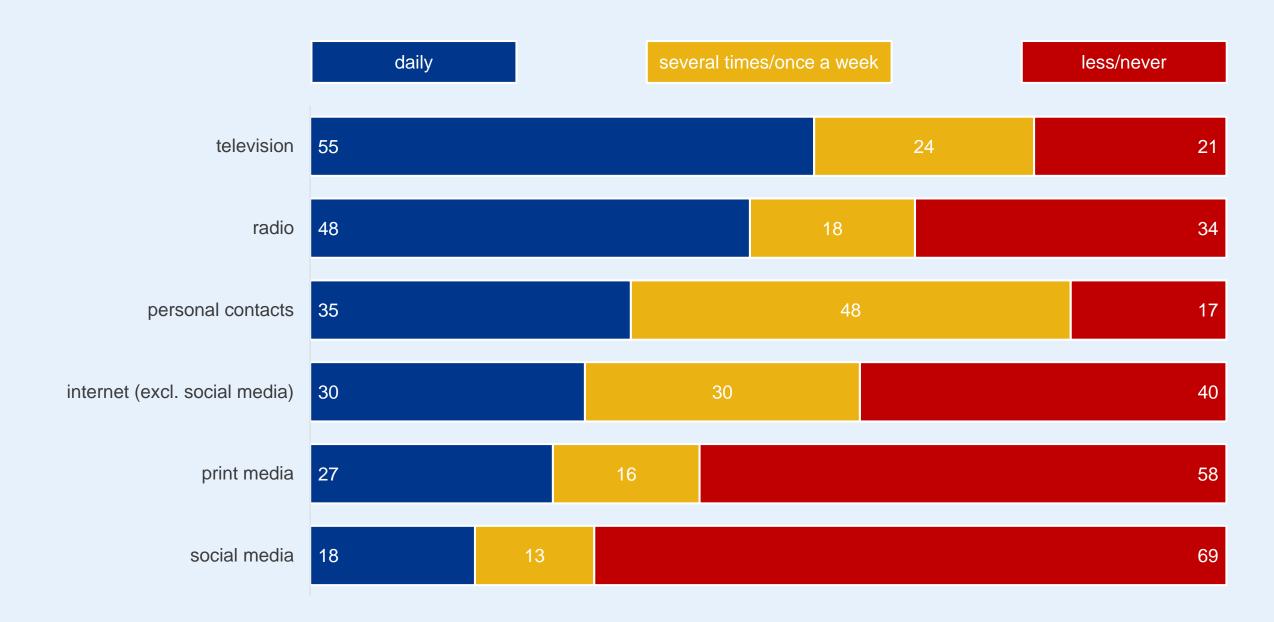

5

Figures given in percentages Basis: 964 participants

## **Used channels of information**

How often do you use the following information channels to inform yourself about what is happening with the novel coronavirus? (Response options: 'daily', 'several times a week', 'once a week', 'less than once a week', 'never')

## BfR-Corona-Monitor | 22–23 June 2021

6

Figures given in percentages Basis: 986–1.005 participants

## **Appropriateness of the measures for containment**

How do you evaluate the following measures to contain the spread of the novel coronavirus? (Response options: 'not appropriate', 'appropriate')

## BfR-Corona-Monitor | 22–23 June 2021

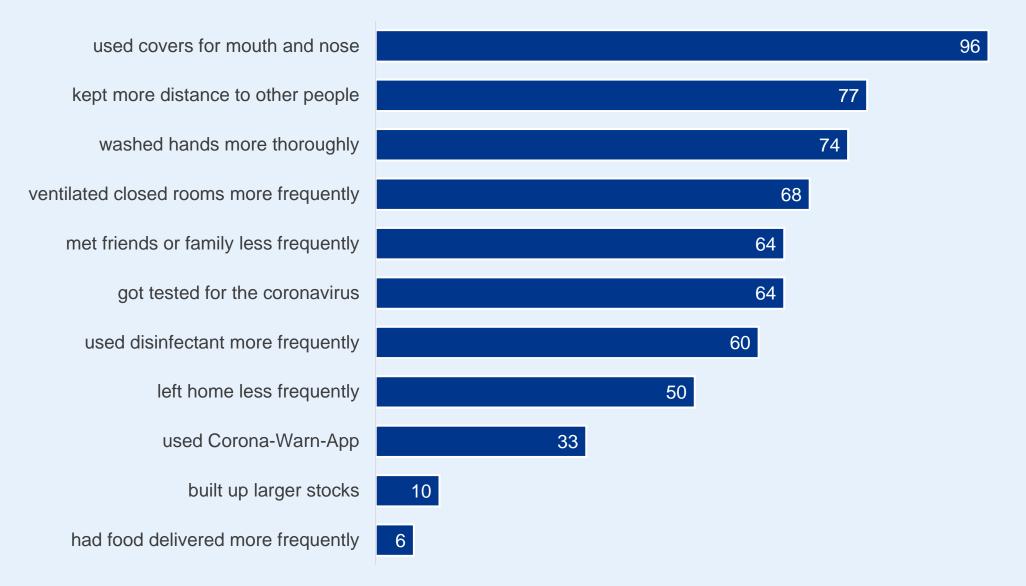

7

Figures given in percentages Basis: 969–996 participants

## **Current protective measures of the participants**

Which of the following measures have you taken within the past 2 weeks to protect yourself or others from the novel coronavirus? (multiple selection)

#### BfR-Corona-Monitor | 22–23 June 2021

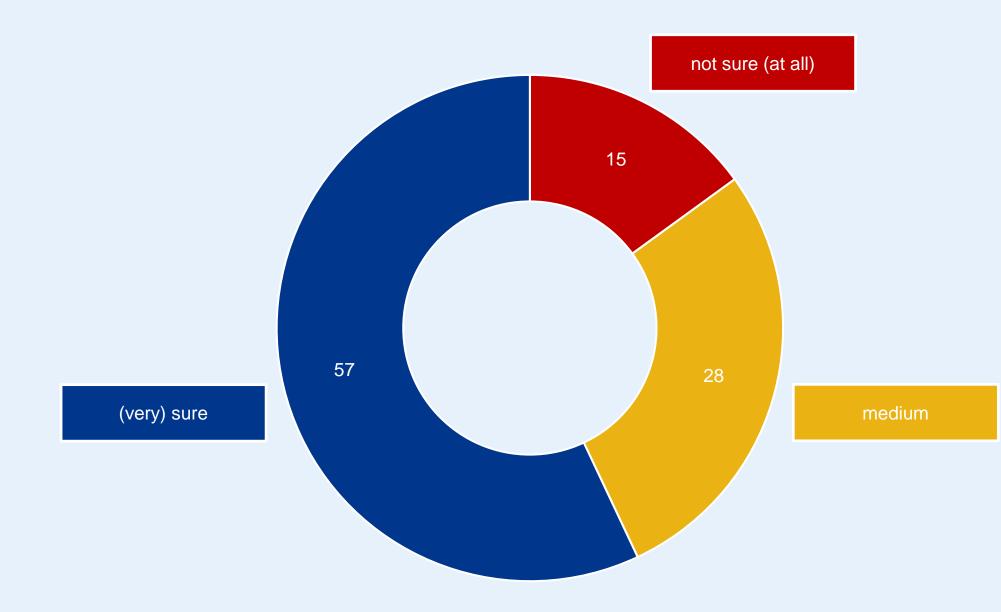

8

Figures given in percentages Basis: 997 participants

## Perceived controllability of the risk of infection

How sure are you that you can protect yourself from an infection with the novel coronavirus? (Response scale: 1 'not sure at all' to 5 'very sure')

#### BfR-Corona-Monitor | 22–23 June 2021

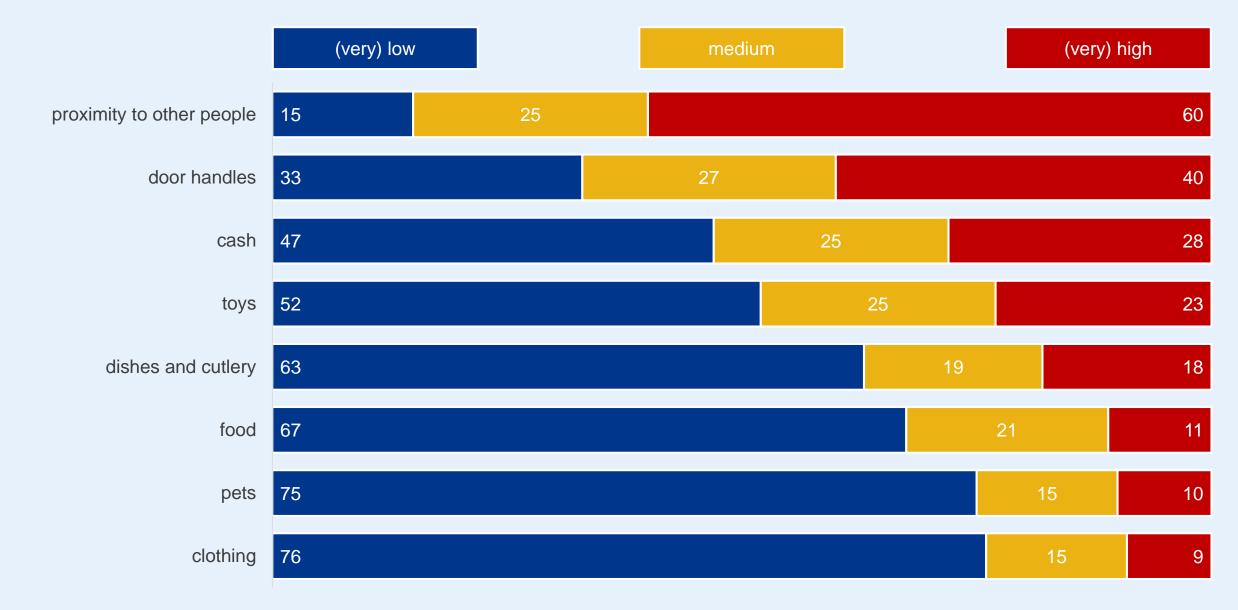

9

Figures given in percentages Basis: 974 participants

## Perceived probability of an infection

How high or low do you estimate the probability of being infected with the novel coronavirus via the following paths? (Response scale: 1 'very low' to 5 'very high')

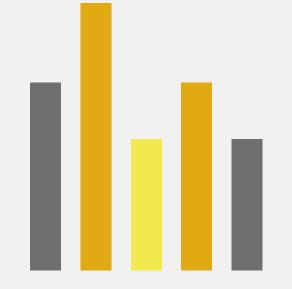

## BfR-Corona-Monitor | 22–23 June 2021

Figures given in percentages Basis: 952–994 participants

## **Over time**

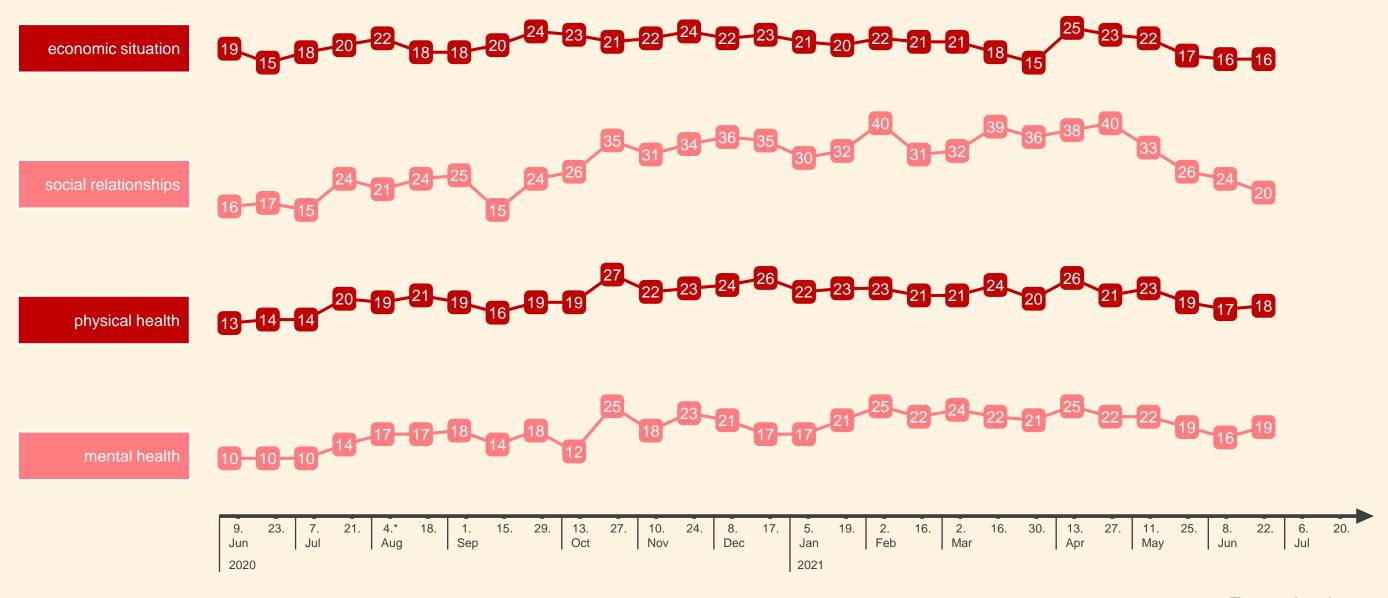

## BfR-Corona-Monitor 22–23 June 2021

## **Concern about the impact of the novel coronavirus**

To what extent are you personally concerned or not concerned about the impact of the novel coronavirus in the following areas of life? (Response scale: 1 'not concerned at all' to 5 'very concerned') – Shown: response category '(very) concerned' (values 4 + 5)

## BfR-Corona-Monitor | 22–23 June 2021

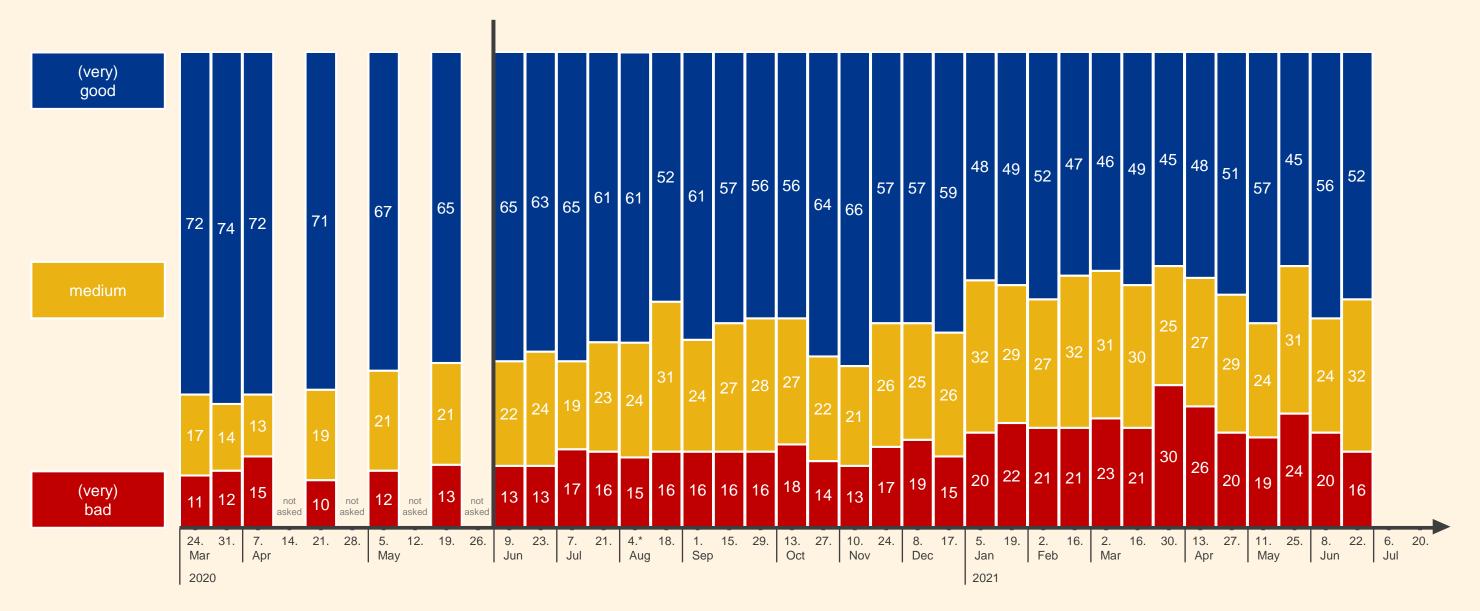

12

Figures given in percentages Basis: 986–1.035 participants

## Perceived informedness about what is happening

How well or badly do you feel informed about what is happening with the novel coronavirus? (Response scale: 1 'very bad' to 5 'very good')

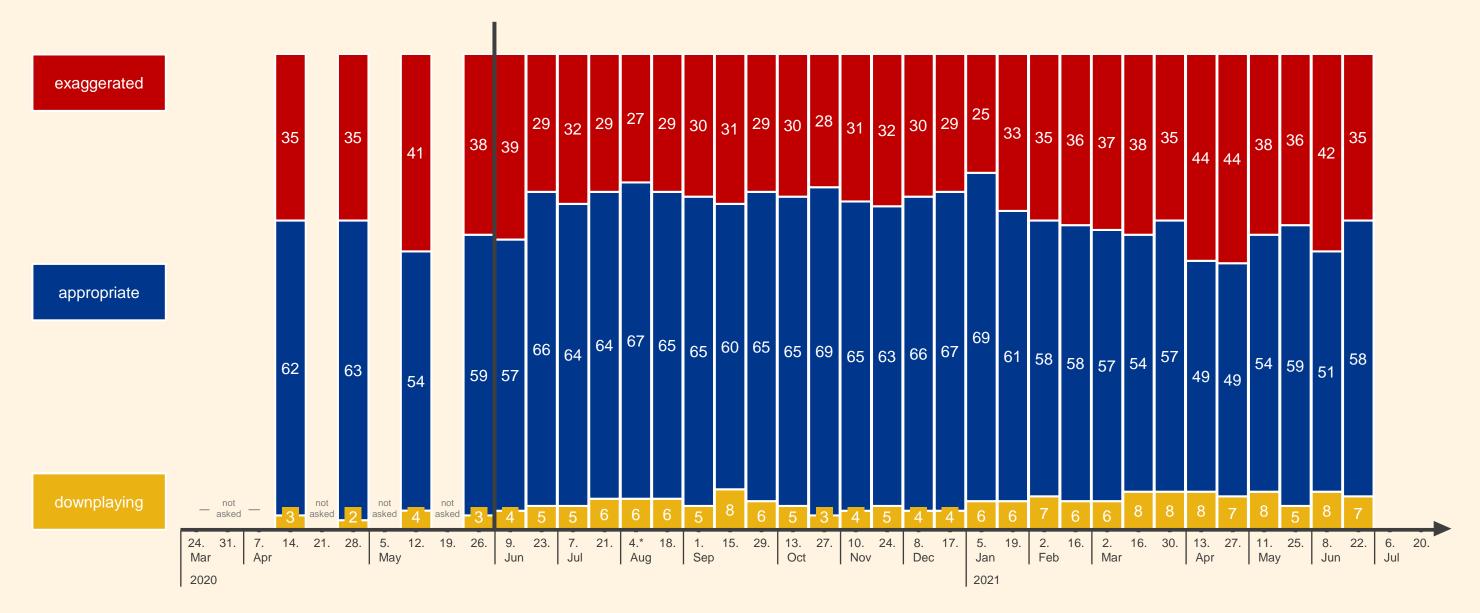

#### BfR-Corona-Monitor | 22–23 June 2021

**Figures given in percentages** Basis Mar-May: 499-510 participants Basis from Jun: 988–1.032 participants

## **Evaluation of media coverage**

How do you evaluate the overall media coverage of the novel coronavirus? (Response options: 'downplaying', 'appropriate', 'exaggerated')

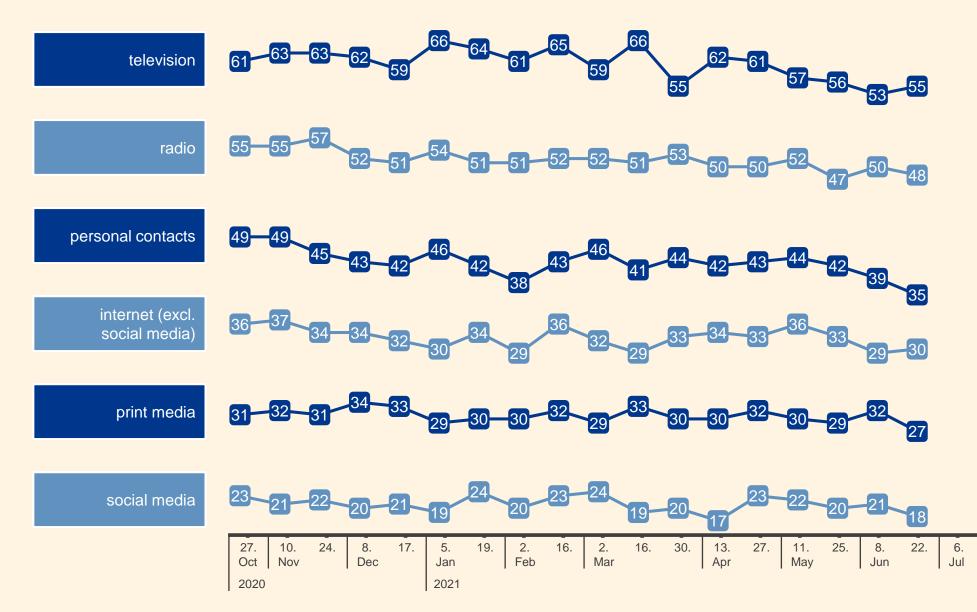

## BfR-Corona-Monitor | 22–23 June 2021

Figures given in percentages Basis Mar-May: 480-502 participants Basis from Jun: 954–1.019 participants

## **Used channels of information**

How often do you use the following information channels to inform yourself about what is happening with the novel coronavirus? (Response options: 'daily', 'several times a week', 'once a week', 'less than once a week', 'never') – Shown: response category 'daily'

Part of the questionnaire since 27 October 2020; survey on two consecutive days; the first day of each survey is indicated

## BfR-Corona-Monitor | 22–23 June 2021

15

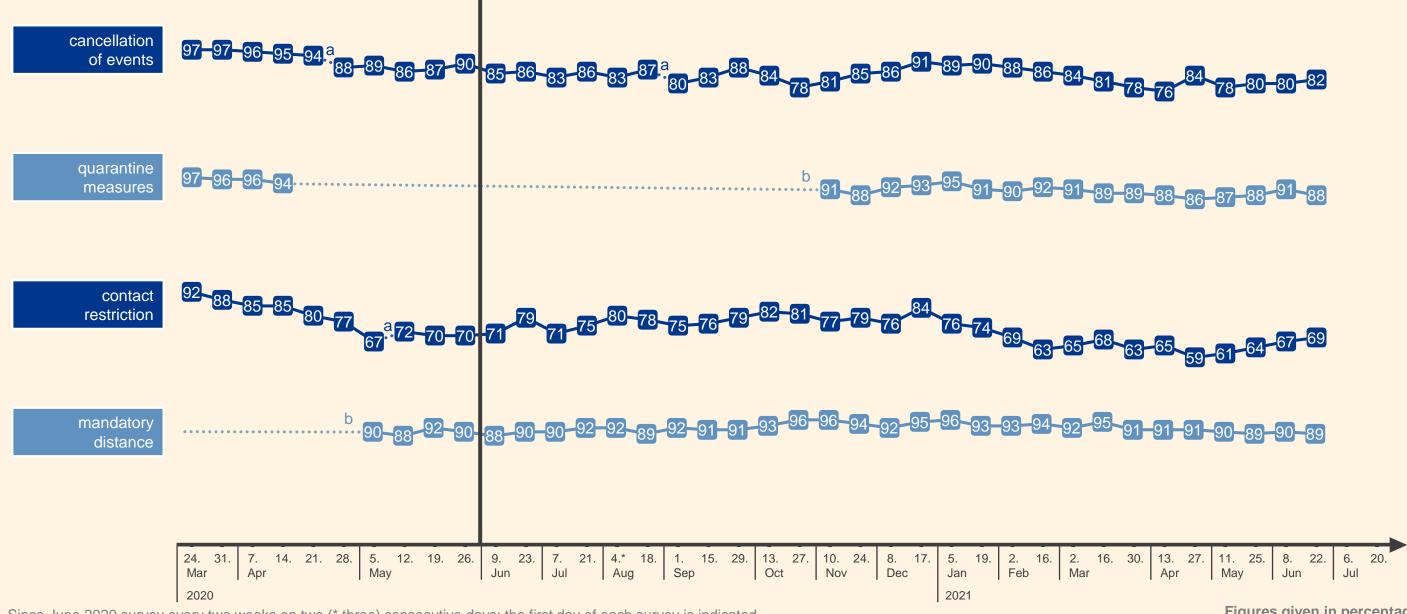

Figures given in percentages Basis: 983–1.024 participants

## Appropriateness of the measures for containment I

How do you evaluate the following measures to contain the spread of the novel coronavirus? (Response options: 'not appropriate', 'appropriate') – Shown: response category 'appropriate'

Since June 2020 survey every two weeks on two (\* three) consecutive days; the first day of each survey is indicated

<sup>a</sup> Wording was adapted to the current situation at the time

<sup>b</sup> Measure was added to the questionnaire (again) at the time indicated

### BfR-Corona-Monitor | 22–23 June 2021

16

Figures given in percentages Basis Mar–May: 474–512 participants Basis from Jun: 916–1.031 participants

## **Appropriateness of the measures for containment II**

How do you evaluate the following measures to contain the spread of the novel coronavirus? (Response options: 'not appropriate', 'appropriate') – Shown: response category 'appropriate'

<sup>a</sup> Wording was adapted to the current situation at the time

<sup>b</sup> Measure was added to the questionnaire (again) at the time indicated

### BfR-Corona-Monitor | 22–23 June 2021

17

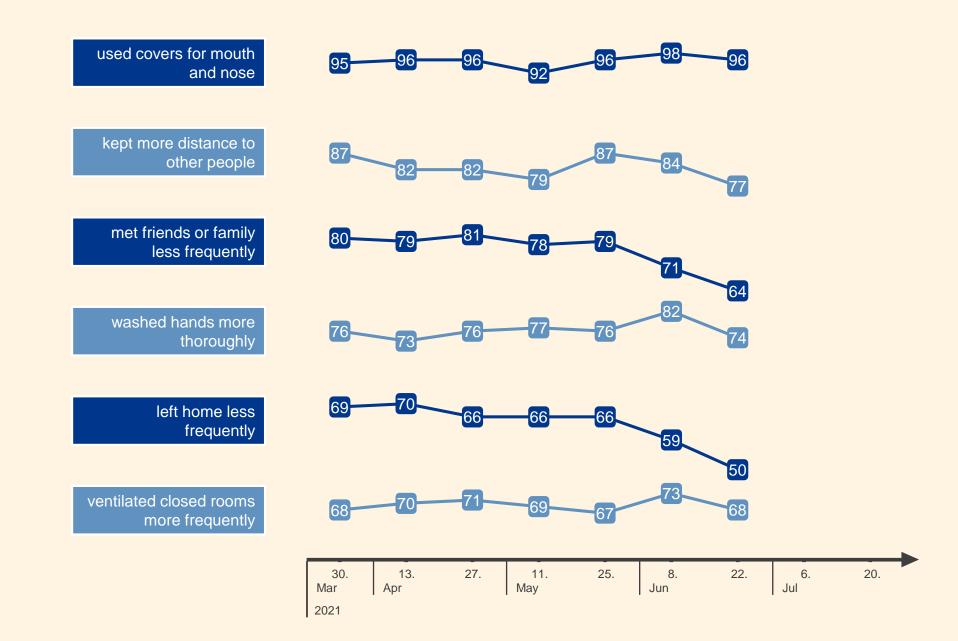

Basis from Jun: 916–1.031 participants

## Current protective measures of the participants I

Which of the following measures have you taken within the past 2 weeks to protect yourself or others from the novel coronavirus? (multiple selection)

Part of the questionnaire since 30 March 2021; survey on two consecutive days; the first day of each survey is indicated

#### BfR-Corona-Monitor | 22–23 June 2021

18

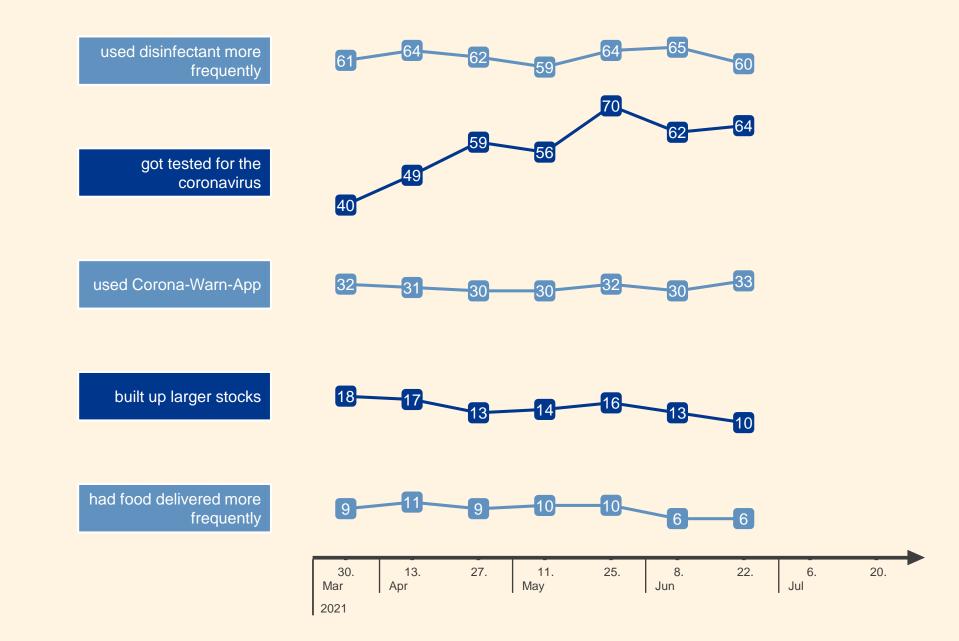

Figures given in percentages Basis: 997–1.016 participants

## **Current protective measures of the participants II**

Which of the following measures have you taken within the past 2 weeks to protect yourself or others from the novel coronavirus? (multiple selection)

#### BfR-Corona-Monitor | 22–23 June 2021

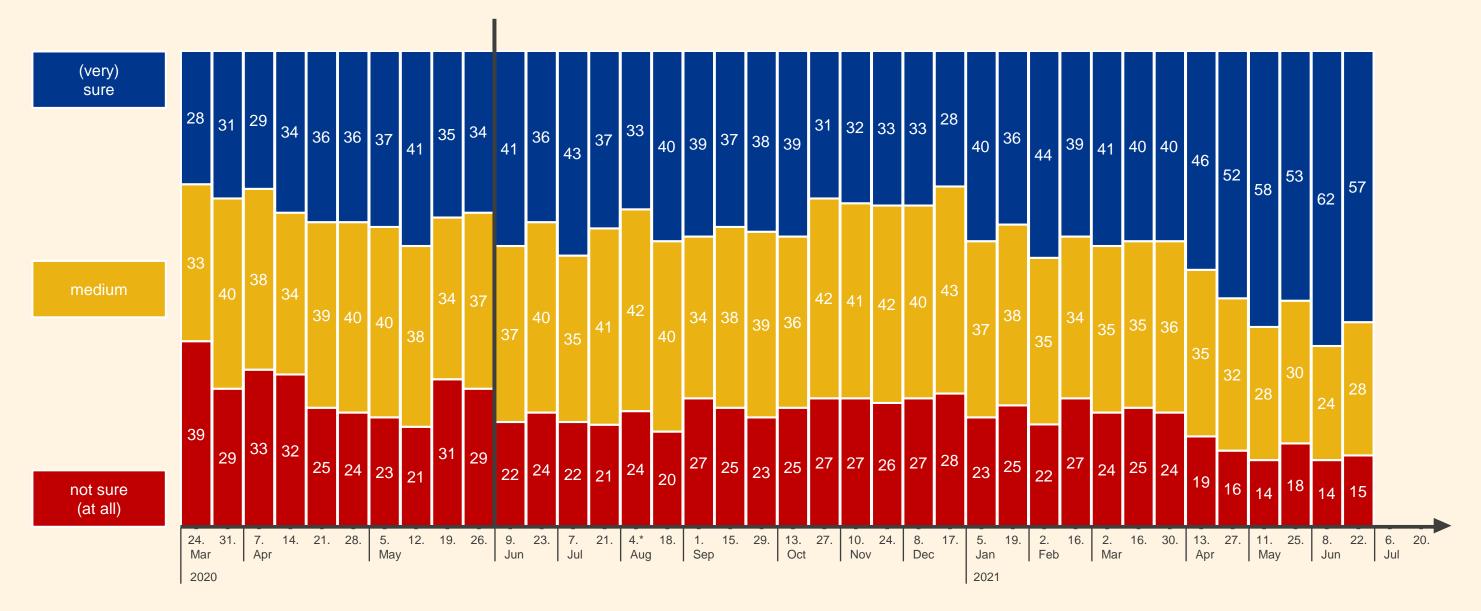

19

Figures given in percentages Basis: 997–1.016 participants

## Perceived controllability of the risk of infection

How sure are you that you can protect yourself from an infection with the novel coronavirus? (Response scale: 1 'not sure at all' to 5 'very sure')

#### BfR-Corona-Monitor | 22–23 June 2021

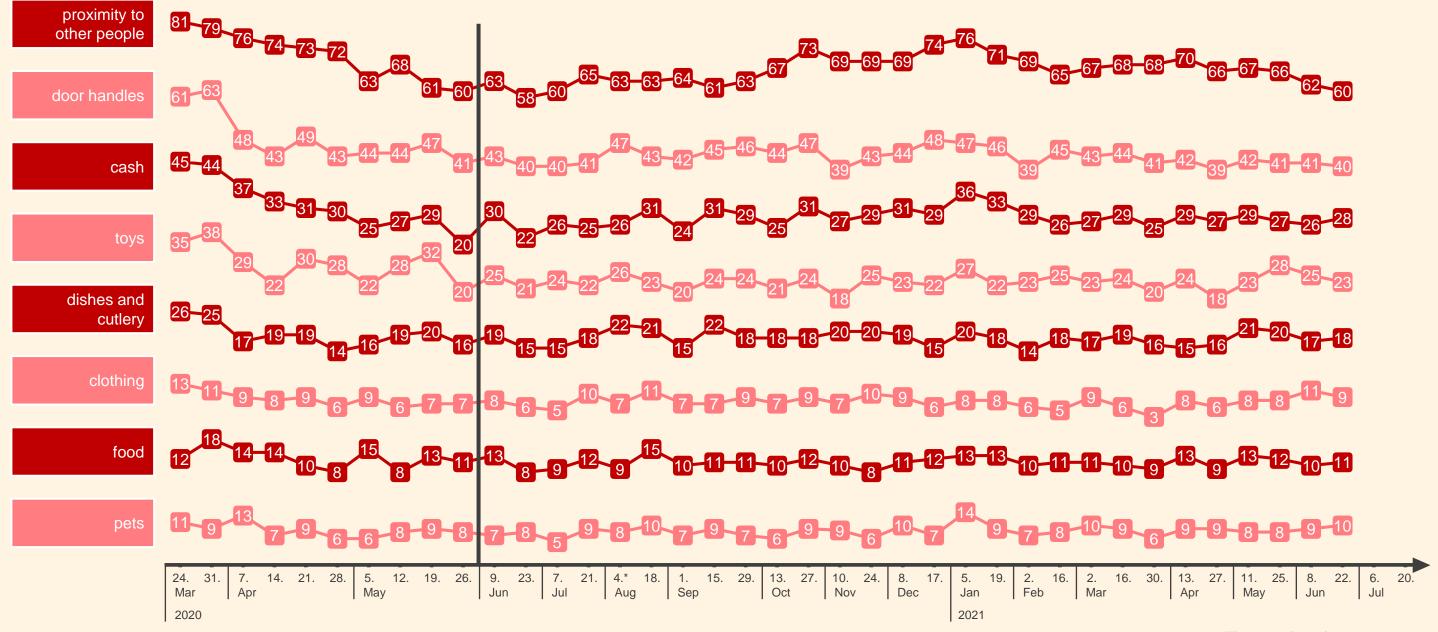

20

Figures given in percentages Basis Mar-May: 492-514 participants Basis from Jun: 973–1.017 participants

## Perceived probability of an infection

How high or low do you estimate the probability of being infected with the novel coronavirus via the following paths? (Response scale: 1 'very low' to 5 'very high') – Shown: response category '(very) high' (values 4 + 5)

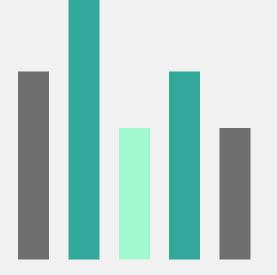

#### BfR-Corona-Monitor | 22–23 June 2021

21

Figures given in percentages Basis Mar-May: 470-511 participants Basis from Jun: 895–1.030 participants

## Age groups

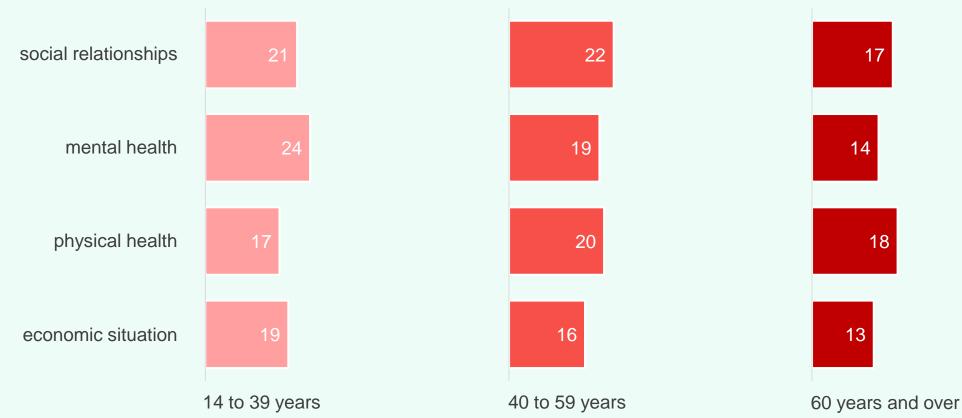

#### BfR-Corona-Monitor | 22–23 June 2021

## **Concern about the impact of the novel coronavirus**

To what extent are you personally concerned or not concerned about the impact of the novel coronavirus in the following areas of life? (Response scale: 1 'not concerned at all' to 5 'very concerned') – Shown: response category '(very) concerned' (values 4 + 5)

#### BfR-Corona-Monitor | 22–23 June 2021

23

Figures given in percentages Basis: 314–351 participants in corresponding age group

## Perceived informedness about what is happening

How well or badly do you feel informed about what is happening with the novel coronavirus? (Response scale: 1 'very bad' to 5 'very good')

## BfR-Corona-Monitor | 22–23 June 2021

24

Basis: 313–345 participants in corresponding age group

## **Evaluation of media coverage**

How do you evaluate the overall media coverage of the novel coronavirus? (Response options: 'downplaying', 'appropriate', 'exaggerated')

## BfR-Corona-Monitor | 22–23 June 2021

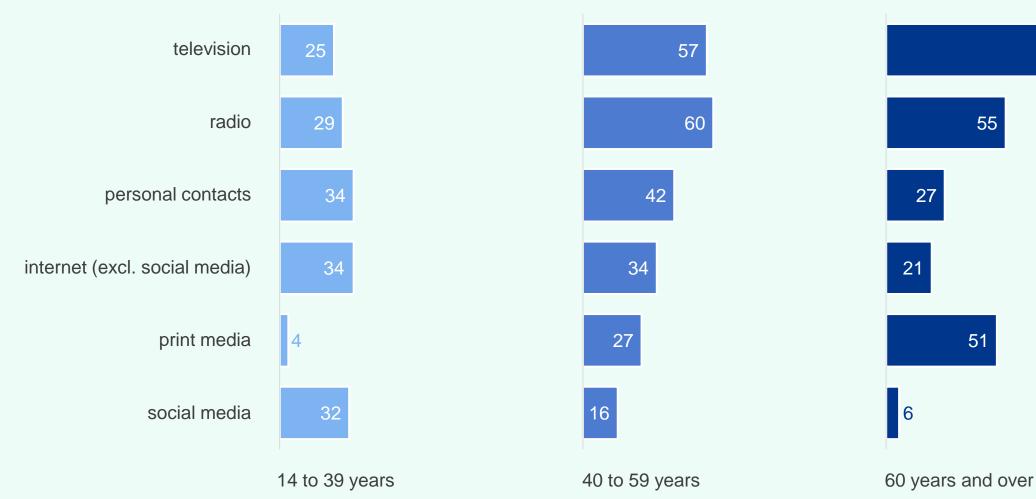

25

Figures given in percentages Basis: 310–334 participants in corresponding age group

## **Used channels of information**

How often do you use the following information channels to inform yourself about what is happening with the novel coronavirus? (Response options: 'daily', 'several times a week', 'once a week', 'less than once a week', 'never') – Shown: response category 'daily'

## BfR-Corona-Monitor | 22–23 June 2021

26

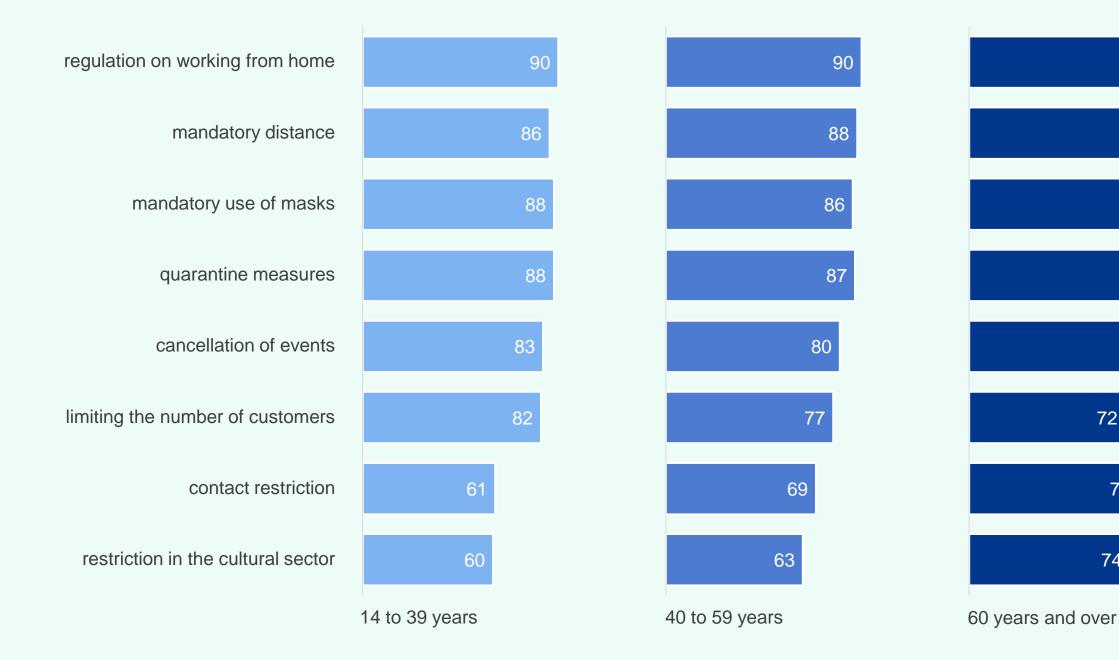

84

Figures given in percentages Basis: 312–351 participants in corresponding age group

## **Appropriateness of the measures for containment**

How do you evaluate the following measures to contain the spread of the novel coronavirus? (Response options: 'not appropriate', 'appropriate') – Shown: response category 'appropriate'

## BfR-Corona-Monitor | 22–23 June 2021

27

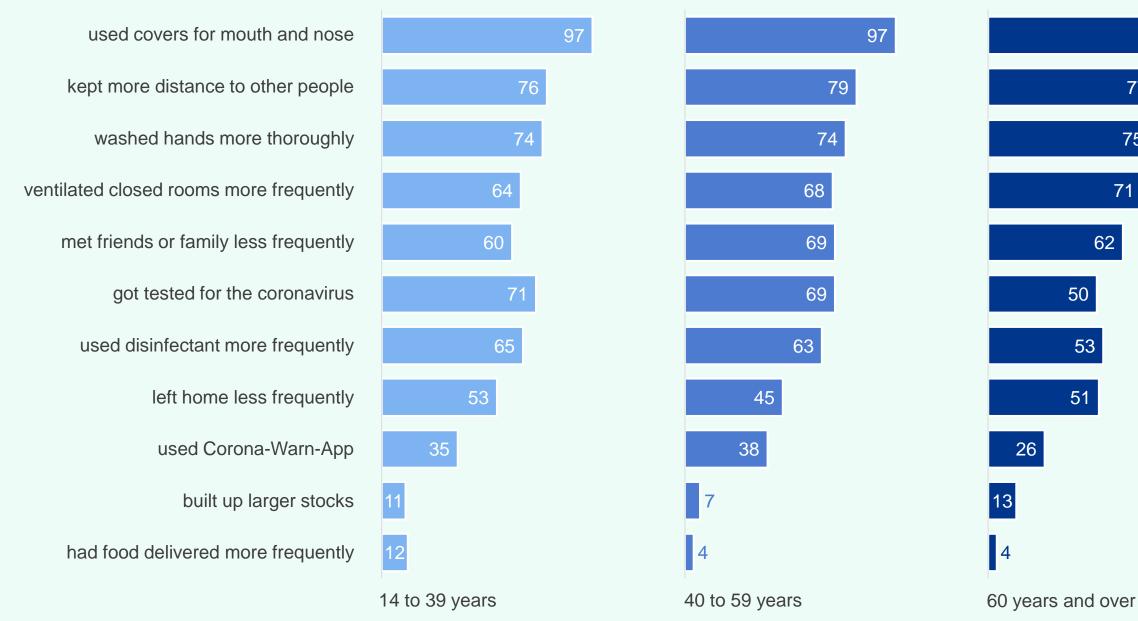

Figures given in percentages Basis: 300–351 participants in corresponding age group

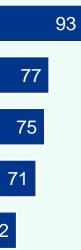

## **Current protective measures of the participants**

Which of the following measures have you taken within the past 2 weeks to protect yourself or others from the novel coronavirus? (multiple selection)

## BfR-Corona-Monitor | 22–23 June 2021

28

Figures given in percentages Basis: 317–349 participants in corresponding age group

## Perceived controllability of the risk of infection

How sure are you that you can protect yourself from an infection with the novel coronavirus? (Response scale: 1 'not sure at all' to 5 'very sure')

### BfR-Corona-Monitor | 22–23 June 2021

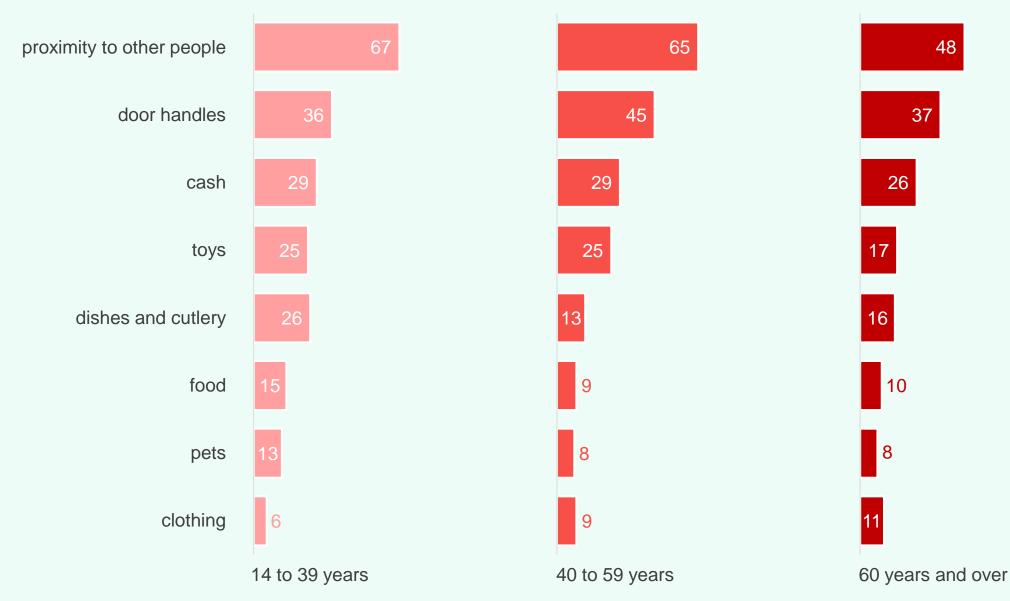

29

Figures given in percentages Basis: 311–341 participants in corresponding age group

## Perceived probability of an infection

How high or low do you estimate the probability of being infected with the novel coronavirus via the following paths? (Response scale: 1 'very low' to 5 'very high') – Shown: response category '(very) high' (values 4 + 5)

## BfR-Corona-Monitor | 22–23 June 2021

30

Figures given in percentages Basis: 283–350 participants in corresponding age group

#### Dates and sample sizes of the survey

#### Survey phase 1 (March – May 2020)

24 Mar	510 participants	28 Apr	503 participants
31 Mar	500 participants	05 May	504 participants
07 Apr	510 participants	12 May	510 participants
14 Apr	515 participants	19 May	509 participants
21 Apr	505 participants	26 May	510 participants

#### Survey phase 2 (June – October 2020)

09–10 Jun	1.015 participants	18–19 Aug	1.033 participants
23–24 Jun	1.037 participants	01–02 Sep	1.013 participants
07–08 Jul	1.011 participants	15–16 Sep	1.026 participants
21–22 Jul	1.037 participants	29–30 Sep	1.012 participants
04–06 Aug	1.024 participants	13–14 Oct	1.015 participants

#### Survey phase 3 (October 2020 – March 2021)

27-28 Oct	1.006 participants	05–06 Jan	1.017 participants
10–11 Nov	1.009 participants	19–20 Jan	1.018 participants
24–25 Nov	1.018 participants	02–03 Feb	1.004 participants
08–09 Dec	1.004 participants	16–17 Feb	997 participants
17–18 Dec	1.010 participants	02–03 Mar	1.014 participants

#### Survey phase 4 (from March 2021)

16–17 Mar	1.012 participants	25–
30–31 Mar	1.008 participants	08–
13–14 Apr	1.007 participants	22-
27–28 Apr	1.024 participants	
11–12 May	1.023 participants	

## BfR-Corona-Monitor | 22–23 June 2021

- -26 May 1.006 participants
- -09 June 1.010 participants
- -23 June 1.005 participants

#### How were the data collected?

Statistical population:	German-speaking population ages 14 years and over in private househor Federal Republic of Germany
Sampling:	Samples drawn at random from land line and mobile telephone numbers include telephone numbers not listed in directories (in line with standard Association of German Market Research Institutes – ADM)
Data weighting:	Data was weighted according to gender, education, age, employment, s German federal state to guarantee representativeness
Method:	Telephone interview (CATI omnibus survey, Dual Frame)
Presentation of results:	All figures given in percentages, rounding differences are possible, only were included (response option 'don't know' was excluded from all analy
Conducted by:	Kantar GmbH

#### About the BfR

Do nanoparticles promote the occurrence of allergies? Does apple juice contain too much aluminium? The German Federal Institute for Risk Assessment, or BfR for short, is responsible for answering questions on all aspects of the health assessment of foods and feeds, consumer products and chemicals. Through its work, it makes a decisive contribution towards ensuring that food, products and the use of chemicals have become safer in Germany.

The Institute's main tasks comprise the assessment of existing health risks and identification of new ones, the development of recommendations to limit risks and the transparent communication of this process. This work results in the scientific advice given to political decision makers. To help with the strategic alignment of its risk communication, the BfR conducts its own research in the field of risk perception. The Institute is independent in its scientific assessments, research and communication. The BfR belongs to the portfolio of the Federal Ministry of Food and Agriculture (BMEL).
