

The German Federal Institute for Risk Assessment (BfR) is the national institute which prepares expert reports and opinions on questions of food, feed and chemical safety and consumer health protection in Germany on the basis of internationally recognised scientific assessment criteria. It advises the Federal Government and other institutions and interest groups in these areas. The BfR conducts its own research on topics that are closely linked to its assessment tasks. It is an institution with legal capacity within the portfolio of the Federal Ministry of Food and Agriculture (BMEL).

In the department Safety in the Food Chain of the BfR is in the unit “Product Identity, Supply Chains and Traceability” from immediately temporary to fill the following position:

## Scientific officer in the National Reference Laboratory for Food Additives and Flavourings (f/m/x)

Reference number: 3290 | Salary group 14 TVöD | Place of work: Berlin | Application period: 22.06.2023

Part-time employment is possible. The time limit is set on the basis of the Act on Fixed-Term Contracts in Academia (Wissenschaftszeitvertragsgesetz).

Remuneration will be paid in line with the tasks undertaken and the applicant's qualifications.

### Tasks:

- Participation in the scientific development of the National Reference Laboratory (NRL) for Food Additives and Flavourings according to Art. 100 of Regulation (EU) 2017/625, in particular with the integration into the quality management system of the BfR, development of an information platform for exchange between stakeholders, etc.
- Technical advice and coordination of laboratories within the network, e.g. by organising conferences and workshops
- Support in answering enquiries and preparing statements
- Expansion of scientific expertise in the field of food additives and flavourings
- Development, optimisation and validation of analysis methods for the determination of food additives and flavourings as well as implementation of interlaboratory tests
- Presentation of results at specialist and international conferences
- Independent initiation and coordination of research activities in the field of food additives and flavours

### Requirements:

- Completed university degree (master's, diploma (uni) or similar university degree) in food chemistry or a similar scientific subject, doctorate required
- Very good knowledge in the field of general food analysis and analytical chemistry is required
- The ability to perform independent scientific work is a prerequisite
- Proven experience in presenting and publishing scientific results is required
- Experience in coordinating research projects or other networks desirable
- Ability of acquiring external funding (grants, research projects) is an advantage

- Experience in working in accredited laboratories and validation of analytical methods is desirable
- Experience with digital research processes and dealing with complex data and supporting tools desired
- Experience with the analysis, interpretation and visualisation of scientific data sets with digital tools desired
- A very good spoken and written knowledge of German and English is required
- Very good IT skills as well as a conscientious approach to work, commitment, flexibility, ability to work in a team and resilience, as well as willingness to travel on business, are all required

#### What we can offer you:

- A varied range of tasks in a growing departmental research institution
- Flexible working hours without fixed working hours
- 30 days' annual leave (5-day week) plus 24 and 31 December as non-working days
- Additional days-off options via time credits
- Attractive subsidy for the company ticket/Deutschlandticket Job
- Mobile working options
- Very good connection to the public transport network
- Comprehensive further training opportunities for professional and personal development
- VBL company pension
- Capital accumulation benefits
- Employee welfare (AWO) family service
